A comparison showed that the man under arrest in New York and the Blanchard wanted here were the same. The crime charged against Blanchard in New York was of a brutal nature. He saw an eleven-year-old boy with \$1.25 and followed the lad, and when a favorable opportunity presented itself, kicked him in the abdomen, and robbed him. He was arrested shortly after the crime. When brought into court for sentence Blanchard announced that he was a hypnotist.

Judge Foster smillingly permitted the prisoner to influence him. Blanchard made

Those who have their Thackerays at their anger-ends must have felt keen delight, last night at the Lafayette, in seeing the familiar characters which the great satirist suggested rather than painted realized in the persons of some of the best actors and actresses of the contemporary stage. The Langdon Mitchell adaptation that helps ac complish this is entitled "Becky Sharp, nd, naturally, the most important of the beings brought to life is that piquant, it remorseless and sanguinary, little lady erself. It is not too much to say that Minnie Maddern Fiske, the star of the oc.a sion, is, rather than seems to be, the bril liant adventuress of Thackeray, her vivacity and grace, her subtlety and intelligence, her intensity and fine art all contribute to an exquisite impersonation. The one flaw in Mrs. Fiske's work is her often-unintelliis detected a piot of ground near where the coldiers killed in the Cuban campaign are gible enunciation, which frequently becomes trying. The play—the first successfully taken The play—the first successfully taken from the wealth of material in the novel—has faults, as such an offering must have, but, despite occasional dramatic gaps and commonplaces redeemed by Mrs. Fiske's labor, it proves amost interesting presentation. "Vanity Fair" hardly could be better epitomized. The march of events is admirably straight, while the complicated story is told with unexpected completeness. When the curtain first falls, Becky has married Hawdon Crawley, and, therefore, has been obliged to refuse his father; in the second scene she meets Lord Steyne; when the third act is over she has been discovered at her intrigue by her husband, and the termination of the piece finds her entering her career of self-satisfied, calm, and selfish hypocrisy. "Becky Sharp" is produced in a manner at once elaborate and detailed. It is precisely the creditable effort one might have anticipated from Mrs. Fiske.

really reckless woman is the one who braves Nature day after day, by neglect of the health of the delicate womanly organs. "Crime and punishment blos som on one stem "says Emerson. When the cycle of self-neglect is complete it includes the pains and sufferings which are the inevitable penalties inflicted by outraged Nature. The drain which to-day is counted an inconvenience, becomes in succeeding days a horrible and offensive stigma. The passing depression of an hour grows into a permanent mel-

ancholy.

The timely use of Dr. Pierce's Favorite Prescription will save young women from suffering, as it will cure those who through neglect have become martyrs through neglect have become martyrs after marriage.
